ACTION ITEMS

a. Poppy Fund Request for Programs

- i. **Heroes in Mind Advocacy & Research Consortium** requested an additional \$200K for extension to complete program, Resilient Parents ... Resilient Communities. Given the aftermath of COVID, deployment and exercise schedules of 3rd Canadian Division, forest fires in

Alberta, and socio-economic pressures the development and implementation were delayed.

MOTION: The Committee approved this request and moved to Poppy and Remembrance (P&R) Committee for review, with a caveat that this be the final amount given.

CARRIED

ii. Canadian Institute of Education and Research in Counselling (CERIC): CERIC is an organization dedicated to advance education, research and advocacy in career counselling and development. They have developed a guide for career practitioners regarding hiring veterans and have asked for \$5,000 for printing. They will have free printed copies of the guide to handout to 1,000 career professionals at Cannexus.

MOTION: The Committee approved this request and moved to the P&R Committee for review

CARRIED

iii. PepperPod: PepperPod is asking for funding for two program requests. The first is the BuildHERS Program for \$46,200 for the material construction of an Outdoor Classroom. The second is the EmpowHER Program for \$49,900 per year for three years for various physical, social and mental health programs.

MOTION: The Committee approved both requests and moved to the P&R Committee for review.

CARRIED

iv. Ways to Wellbeing: They are asking for \$12,500 to distribute their documentary, Healing Trauma documentary. In 2021, they received \$15K from Dominion Command towards filming the documentary. This funding would allow them to edit, add images, videos and music and purchase movie posters and other promotional material to ultimately play the documentary at various film fests. Comrade Carolyn will connect with P&R committee on this application and program to determine if it fits their criteria for the distribution of funds. It will be discussed further at the next VSS meeting.

ACTION: Comrade Carolyn

v. Concussion Legacy Foundation and Project Enlist (Operation Brain Health): They requested \$450K over three years (\$150K a year). The goal of the program is to develop a national strategy to

support and improve brain injury awareness, prevention, and treatment as well as the rehabilitation and recovery of persons living with a brain injury.

MOTION: Recommended this request be moved to P&R for review and funding.

CARRIED

vi, Project Athena -There is no financial request but came from the P&R Committee to review. It is an interactive mapping system where locations of significance in Afghanistan can be noted by veterans, such as IED explosions or other battles. The developer would like support and partnership in the initiative. At this time, it was decided amongst VSS members that this request would not be approved. There were questions surrounding liability and privacy risk at this point in time.

The P&R Committee will be advised.

MOTION: It was recommended this request be declined.
